

REMARKS

Reconsideration and allowance are respectfully requested.

Claims 1-16 are pending.

The Office Action Summary acknowledged the claim for foreign priority, but alleged that none of the certified copies of the priority documents have been received. This is incorrect as shown by the attached. In the parent Application No. 09/958,928, the copies of the Office Action Summary mailed October 3, 2003 and the Notice of Allowability mailed March 25, 2004 both confirm that all certified copies of the priority documents have been received in the U.S. national-stage application from the International Bureau. Therefore, Applicants request that acknowledgement of the receipt of the certified copy of priority document JP 2000-40218 be made in the next Official communication.

35 U.S.C. 112 – First Paragraph

The specification must convey with reasonable clarity to persons skilled in the art that applicant was in possession of the claimed invention as of the filing date sought. See *Vas-Cath v. Mahurkar*, 19 USPQ2d 1111, 1117 (Fed. Cir. 1991). But the Patent Office has the initial burden of presenting evidence or a reason why persons of ordinary skill in the art would not have recognized such a description of the claimed invention in the original disclosure. See *In re Gosteli*, 10 USPQ2d 1614, 1618 (Fed. Cir. 1989).

Claims 1-16 were rejected under Section 112, first paragraph, “as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.” Applicants traverse.

The FERMBP-7434 strain recited in the claims was deposited under the terms of the Budapest Treaty. A copy of the depository receipt is attached. Access to the deposit will be available during pendency of the patent application making reference to the deposit to one determined by the Director to be entitled thereto. Subject to 37 CFR § 1.808(b), all restrictions imposed by the depositor on the availability to the public of the deposit will be irrevocably removed upon granting of a patent; the deposit will be

maintained in a public depository for a period of 30 years or 5 years after the last request or for the effective life of the patent, whichever is longer; and the deposit will be replaced if it should ever become inviable.

Withdrawal of the Section 112, first paragraph, rejection is requested.

Double Patenting

Claims 1-16 were rejected on the ground of nonstatutory obviousness-type double patenting as being allegedly unpatentable over claims 1-10 of U.S. Patent No. 6,797,279. Applicants traverse because a terminal disclaimer is being submitted herewith.

It should be noted that the filing of a terminal disclaimer to overcome a rejection based on non-statutory double patenting is not an admission that the rejection was proper. See *Quad Environmental Technologies Corp. v. Union Sanitary District*, 20 USPQ2d 1392, 1394-95 (Fed. Cir. 1991). The Court stated that the “filing of a terminal disclaimer simply serves the statutory function of removing the rejection of double patenting, and raises neither a presumption nor estoppel on the merits of the rejection.” Thus, submission of a terminal disclaimer is not an admission that the pending claims are obvious over the claims of U.S. Patent No. 6,797,279.

Withdrawal of the double patenting rejection is requested.

Conclusion

Finally, it was erroneously stated, “All claims fail to be patentably distinguishable over the state of the art discussed above and cited on the enclosed PTO-892 and/or PTO-1449” on page 6 of the Action. But no prior art was discussed in this Action in such a way as to reject original claims 1-16 under Sections 102 and/or 103. This statement appears to be an inadvertent error by the Examiner and if maintained in the next Action, Applicants request clarification of the “art” rejection and the opportunity to respond fully prior to that rejection being made final.

Having fully responded to all of the pending objections and rejections contained in this Office Action, Applicants submit that the claims are in condition for allowance and

earnestly solicit an early Notice to that effect. The Examiner is invited to contact the undersigned if any further information is required.

Respectfully submitted,
